2025 Midwest Healthcare  
Engineering  
CONFERENCE & TRADE SHOW

ENGINEERING THE  
FUTURE

SUCCESS THROUGH > SYNERGY >

November 2-4, 2025

# Strategic Plan for the next three years

## 2025 to 2027

**Lead the  
Profession**

**Equip  
Professionals**

**Educate the  
Workforce**

**Raise  
Awareness  
and  
Recognition**

# We must lead the Profession

**Amplify ASHE as the leading professional community for health care physical environment professionals.**

1. Enhance member value.
2. Make our educational offerings more accessible, user-friendly, and valuable to all stakeholders.
3. Establish communication vehicles to integrate conversations across the facility.

# Equip Professionals

**Equip health care physical environment professionals to optimize operations.**

1. Adoption and application of asset management approaches
2. Benchmarking insights to optimize operations
3. Relevant tools and information to leverage sustainability

## Educate the Workforce

**Strengthen the physical environment workforce through learning and development at all career stages.**

1. Support young professionals, early careerists, and technicians
2. Increase access for mid-career staff.
3. Executive-level training

# Raise Awareness and Recognition

**Raise awareness and recognition among key decision makers about the critical role the physical environment plays in driving clinical outcomes and operational value.**

1. Reduce regulatory burden and enhance compliance comprehension
2. Maximize the AHA network at a national and state level
3. Expand reach through strategically valuable organizations

# Volunteer with Chapters and ASHE

## Together we can make healthcare better

## CommonSpirit Health

Engineering excellence & a mission  
to future-proof healthcare facilities

Written by JASON PAFUNDI and Produced by ANDREW WRIGHT and MATT HEPPNER

CommonSpirit Health is the largest nonprofit healthcare organization in the United States, dedicated to providing compassionate, high-quality care across a vast network of hospitals and healthcare facilities. With a strong mission rooted in service and innovation, CommonSpirit continuously adapts to the rapidly evolving healthcare landscape, ensuring patients receive the best possible care.

At the heart of CommonSpirit's operations is a commitment to operational excellence, particularly in facilities management, energy and infrastructure. The organization's facilities must meet the highest efficiency, safety and compliance standards, making the role of a facilities director crucial. One such leader making a significant impact is Skanda Skandaverl, the division director of facilities management, energy and infrastructure. His unique journey from Sri Lanka to Kansas and his commitment to advancing healthcare facility engineering have made him an invaluable leader in the field.
